A First Course in Linear Algebra

Daniel Zelinsky

A First Course in Linear Algebra Daniel Zelinsky

A First Course in Linear Algebra provides an introduction to the algebra and geometry of vectors, matrices, and linear transformations.

This book is designed as a background for second-year courses in calculus of several variables and differential equations where the theory of linear differential equations parallels that of linear algebraic equations. The topics discussed include the multiplication of vectors by scalars, vectors in n -space, planes and lines, and composites of linear mappings. The symmetric matrices and mappings, quadratic forms, change of coordinates, and effect of change of basis on matrices of linear functions are also described. This text likewise considers the computation of determinants, diagonalizable transformations, computation of eigenvalues and eigenvectors, and principal axis theorem.

This publication is suitable for college students taking a course in linear algebra.

From reader reviews:

Vincent Erickson:

Now a day people that Living in the era wherever everything reachable by talk with the internet and the resources included can be true or not call for people to be aware of each info they get. How many people to be smart in getting any information nowadays? Of course the solution is reading a book. Examining a book can help folks out of this uncertainty Information specifically this A First Course in Linear Algebra book because book offers you rich details and knowledge. Of course the knowledge in this book hundred % guarantees there is no doubt in it as you know.

Harley Campbell:

Information is provisions for individuals to get better life, information presently can get by anyone with everywhere. The information can be a knowledge or any news even a concern. What people must be consider if those information which is in the former life are hard to be find than now could be taking seriously which one would work to believe or which one often the resource are convinced. If you receive the unstable resource then you obtain it as your main information we will see huge disadvantage for you. All of those possibilities will not happen within you if you take A First Course in Linear Algebra as the daily resource information.

John McGinnis:

Are you kind of hectic person, only have 10 or maybe 15 minute in your day time to upgrading your mind skill or thinking skill actually analytical thinking? Then you are receiving problem with the book when compared with can satisfy your small amount of time to read it because all of this time you only find book that need more time to be go through. A First Course in Linear Algebra can be your answer because it can be read by a person who have those short free time problems.

Rachel Haley:

You may get this A First Course in Linear Algebra by go to the bookstore or Mall. Only viewing or reviewing it might to be your solve problem if you get difficulties for your knowledge. Kinds of this reserve are various. Not only simply by written or printed and also can you enjoy this book simply by e-book. In the modern era like now, you just looking from your mobile phone and searching what their problem. Right now, choose your personal ways to get more information about your e-book. It is most important to arrange you to ultimately make your knowledge are still up-date. Let's try to choose correct ways for you.
