## **Body Reshaping through Muscle and Skin Meridian Therapy: An Introduction to 6 Body Types**

Jeonhee Jang

**Body Reshaping through Muscle and Skin Meridian Therapy: An Introduction to 6 Body Types** shows you how your weight and body shape can be a direct result of ill health and explains the structures and functions involved. It explores much more than just what your scale and the fit of your clothes might tell you. It looks at skin, fat, muscles, diaphragm, historical illnesses or injuries, body posture, body clock or circadian rhythm, digestion, blood vessels, nutrition, sympathetic nervous system, parasympathetic nervous system, and enteric nervous system. By examining the above factors, you will learn how they contribute toward changes in body shape (notice no mention of dieting or exercise).

Muscle meridian therapy refers to the passive application of treatments to muscles not connected to any major organ. The techniques involved improve all the metabolic balances of the body (pressure, temperature, and balance) as well as your overall health. Therapies can benefit all people, including those with traumas such as digestive system disorders, autonomic nerve system disorders, medication complications, post-childbirth complications, major scarring, posture issues, and pain management.

The author provides the traditional Chinese medicine (TCM) tools and techniques needed for practitioner-guided wellness or at-home wellness understanding and maintenance. The book offers a full guide to "body type" evaluation for muscle meridian therapy and presents a "passive" therapy method (like massage or acupuncture) to complement "active" therapies (like physical therapy and exercise). It covers concepts that are highly individualized yet very "whole body" for physical restoration and balance.
