The Nature of Nature Ruth Ann Allaire

The Nature of Nature provides a landscape for Ruth Ann to paint word pictures from a variety of observations on the natural world and on life from a human perspective. The seasons are looked at from different angles. Obfuscation describes a squid's antics, while Innocents considers the longevity of daffodils. Those who observe nature are always wondering about the great green world, how it came to be, how it is changing and what lessons we might derive from our observations. Human nature is also described in Mediocrity and Tangible?? And most importantly as the terrible reality of war in Understanding For the many in life who observe nature this is perhaps a reflection on their findings.
