The Britannica Guide to Cell Biology Set Various

Cells are the building blocks of all life, from microscopic organisms to plants, animals, and humans. This series covers all the vital processes and functions of cells, including division, specialization, and communication. The differences between plant and animal cells, as well as eukaryotic and prokaryotic cells, are explained in depth. These informative, dynamic books support Common Core Science Standards by teaching readers to evaluate evidence, understand scientific theories, and connect and relate knowledge.
