The Unborn Patient: The Art and Science of Fetal Therapy Michael R. Harrison MD FACS FAAP, Mark Evans MD, N. Scott Adzick MD, Wolfgang Holzgreve MD MS Drhc

This popular reference returns in the 3rd Edition with an exciting new focus entirely committed to fetal therapy. Leading authorities from around the world provide comprehensive management strategies for several dozen diseases that can now be detected in utero. Each disease is covered in its own chapter providing all of the exciting new options in prenatal and postnatal treatment. Coverage includes updated information on pathophysiology and the technical aspects of treatment. This content also provides excellent teaching material for families considering or undergoing treatment.
