Scribus: Open-Source Desktop Publishing Christoph Schäfer, Gregory Pittman

This book provides a detailed overview over the hundreds of features of the premier Open Source Desktop Publishing software Scribus, as well as numerous tips and tricks. It has been written collaboratively by designers, pre-press experts, experienced Scribus users, and also by some of the Scribus developers. Led by Dr Gregory Pittman and Dr Christoph Schäfer, both experienced writers, they created this documentation, which was approved by the Scribus Team as the Official Manual for version 1.3.3. Hundreds of questions from the Scribus mailing list and the Scribus IRC channel, as well as real-world experiences in professional layout and printing with Scribus, have helped to make this documentation an invaluable resource for the use of Scribus. A substantial portion of the proceeds from each copy goes to the Scribus Project to support its development and ensure it is made freely available for many years to come. Scribus is open-source software, available for free download at <http://www.scribus.net>.
