Overview: The Haddock text features the successful author team Price et al. The author team based A Contemporary Approach on the solid foundation of the Price 14e textbook; however, in Haddock, the approach has been modified to fit the needs of a growing number of College Accounting instructors who teach the course without covering special journals. These instructors feel that special journals are an unnecessarily complicated subject for such a basic course. By eliminating special journal coverage, professors are free to focus on recording to the general journal and posting to the general ledger - the basic bookkeeping functions that are so important to accountants in the real world.
