**Thorium Energy for the World: Proceedings of the ThEC13 Conference, CERN, Globe of Science and Innovation, Geneva, Switzerland, October 27-31, 2013**

The Thorium Energy Conference (ThEC13) gathered some of the world's leading experts on thorium technologies to review the possibility of destroying nuclear waste in the short term, and replacing the uranium fuel cycle in nuclear systems with the thorium fuel cycle in the long term. The latter would provide abundant, reliable and safe energy with no CO<sub>2</sub> production, no air pollution, and minimal waste production.

The participants, representatives of 30 countries, included Carlo Rubbia, Nobel Prize Laureate in physics and inventor of the Energy Amplifier; Jack Steinberger, Nobel Prize Laureate in physics; Hans Blix, former Director General of the International Atomic Energy Agency (IAEA); Rolf Heuer, Director General of CERN; Pascal Couchepin, former President of the Swiss Confederation; and Claude Haegi, President of the FEDRE, to name just a few.

The ThEC13 proceedings are a source of reference on the use of thorium for energy generation. They offer detailed technical reviews of the status of thorium energy technologies, from basic R&D to industrial developments.

They also describe how thorium can be used in critical reactors and in subcritical accelerator-driven systems (ADS), answering the important questions:

- Why is thorium so attractive and what is the role of innovation, in particular in the nuclear energy domain?
- What are the national and international R&D programs on thorium technologies and how are they progressing?

ThEC13 was organized jointly by the international Thorium Energy Committee (iThEC), an association based in Geneva, and the International Thorium Energy Organisation (IThEO). It was held in the Globe of Science and Innovation at the European Organization for Nuclear Research (CERN), Geneva, Switzerland, in October 2013.

**From reader reviews:**

**Shirley Joy:**

The book Thorium Energy for the World: Proceedings of the ThEC13 Conference, CERN, Globe of Science and Innovation, Geneva, Switzerland, October 27-31, 2013 has a lot of knowledge on it. So when you read this book you can get a lot of gain. The book was compiled by the very famous author. The writer makes some research ahead of write this book. This kind of book very easy to read you may get the point easily after scanning this book.

**Margaret Barone:**

You are able to spend your free time to see this book this publication. This Thorium Energy for the World: Proceedings of the ThEC13 Conference, CERN, Globe of Science and Innovation, Geneva, Switzerland, October 27-31, 2013 is simple to create you can read it in the park, in the beach, train and soon. If you did not include much space to bring the actual printed book, you can buy often the e-book. It is make you much easier to read it. You can save the particular book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.

**Nora Carter:**

As we know that book is important thing to add our know-how for everything. By a book we can know everything we wish. A book is a pair of written, printed, illustrated or maybe blank sheet. Every year has been exactly added. This e-book Thorium Energy for the World: Proceedings of the ThEC13 Conference, CERN, Globe of Science and Innovation, Geneva, Switzerland, October 27-31, 2013 was filled concerning science. Spend your extra time to add your knowledge about your technology competence. Some people has distinct feel when they reading the book. If you know how big benefit of a book, you can sense enjoy to read a guide. In the modern era like right now, many ways to get book that you simply wanted.

**Cynthia Bryant:**

That reserve can make you to feel relax. This specific book Thorium Energy for the World: Proceedings of the ThEC13 Conference, CERN, Globe of Science and Innovation, Geneva, Switzerland, October 27-31, 2013 was bright colored and of course has pictures on the website. As we know that book Thorium Energy for the World: Proceedings of the ThEC13 Conference, CERN, Globe of Science and Innovation, Geneva, Switzerland, October 27-31, 2013 has many kinds or category. Start from kids until teenagers. For example Naruto or Private eye Conan you can read and feel that you are the character on there. Therefore not at all of book are usually make you bored, any it offers you feel happy, fun and relax. Try to choose the best book to suit your needs and try to like reading in which.
