**James (Geneva Series of Commentaries)** Thomas Manton

The republication of this exposition of James by Thomas Manton is timely and that for three good reasons.

- The first is the special relevance of this Epistle in the contemporary Church situation, with the constant danger of antinomianism.
- The second reason is that for a thorough exposition of 'this very practical book Manton's work still stands in a category of its own.
- The third reason is the excellent example of expository preaching which this book provides.
