Physiologie humaine (French Edition)

Bernard Lacour, Jean-Paul Belon

Physiologie humaine (French Edition) Bernard Lacour, Jean-Paul Belon

Cet ouvrage développe une **approche pédagogique et précise** de l'ensemble des connaissances de physiologie indispensables à la compréhension du fonctionnement de l'organisme humain.

Dix-sept chapitres sont regroupés en **3 parties** : **Physiologie nerveuse, Physiologie générale et Endocrinologie.**

Chaque chapitre définit les objectifs d'apprentissage et adopte une structure systématique, claire et très didactique. **Plus de 400 illustrations couleur et de nombreux encadrés de physiopathologie** viennent étayer le texte. Des encarts spécifiques présentent **la sémiologie des principales pathologies** rencontrées et illustrent ainsi l'application clinique des éléments décrits en physiologie.

En fin de chapitre, une partie **Entraînements**, avec une série de QCM, permet à l'étudiant de s'entraîner et de s'auto-évaluer. En fin d'ouvrage, l'étudiant accède aux **corrigés** de tous les exercices.

Des **compléments en ligne** sont disponibles sur un site dédié contenant des illustrations complémentaires.
