This book presents contemporary and historical facts about Afghanistan and the American led war in that country. The information presented here is based on field observations and analysis, supported by my decades of worldwide professional experience. While American contribution in education and development of former Afghanistan has been appreciated, the atrocities committed during this war as well the animosities created among Afghans are the major focus of this Interpreter. This war was created by Bush/Cheney, other 1% wealthy Americans, and their Anglo-Zionist comrades in order to destabilize and control Islamic nations and make windfall profits in military contracts. As usual, the vast majority of Americans have been kept in the dark regarding the humongous human and financial costs of this war, and the millions of new enemies created for America.
