From the foreword. "This work also represents a slight departure from the norm for historical studies from CSI. As noted, it is not purely a work of history. This study goes beyond our normal practice of offering insights from the past as it offers specific policy prescriptions for tomorrow. LTC Wunderle briefly touches on some of the historical roots of Iraqi and Middle Eastern culture, but he focuses primarily on cultural conditions in Iraq today. He also presents ideas for modifying a number of the US Army's military decisionmaking processes and training programs."
