Dominique Guinard, Vlad Trifa

Building the Web of Things: With examples in Node.js and Raspberry Pi Dominique Guinard, Vlad Trifa

Summary

A hands-on guide that will teach how to design and implement scalable, flexible, and open IoT solutions using web technologies. This book focuses on providing the right balance of theory, code samples, and practical examples to enable you to successfully connect all sorts of devices to the web and to expose their services and data over REST APIs.

Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications.

About the Technology

Because the Internet of Things is still new, there is no universal application protocol. Fortunately, the IoT can take advantage of the web, where IoT protocols connect applications thanks to universal and open APIs.

About the Book

Building the Web of Things is a guide to using cutting-edge web technologies to build the IoT. This step-by-step book teaches you how to use web protocols to connect real-world devices to the web, including the Semantic and Social Webs. Along the way you'll gain vital concepts as you follow instructions for making Web of Things devices. By the end, you'll have the practical skills you need to implement your own web-connected products and services.

What's Inside

- Introduction to IoT protocols and devices
- Connect electronic actuators and sensors (GPIO) to a Raspberry Pi
- Implement standard REST and Pub/Sub APIs with Node.js on embedded systems
- Learn about IoT protocols like MQTT and CoAP and integrate them to the Web of Things
- Use the Semantic Web (JSON-LD, RDFa, etc.) to discover and find Web Things
- Share Things via Social Networks to create the Social Web of Things
- Build a web-based smart home with HTTP and WebSocket
- Compose physical mashups with EVRYTHNG, Node-RED, and IFTTT

About the Reader

For both seasoned programmers and those with only basic programming skills.

About the Authors

Dominique Guinard and **Vlad Trifa** pioneered the Web of Things and cofounded EVRYTHNG, a large-scale IoT cloud powering billions of Web Things.

From reader reviews:

Gene Kirkland:

Now a day those who Living in the era wherever everything reachable by connect to the internet and the resources in it can be true or not involve people to be aware of each data they get. How people have to be smart in acquiring any information nowadays? Of course the correct answer is reading a book. Studying a book can help folks out of this uncertainty Information specifically this Building the Web of Things: With examples in Node.js and Raspberry Pi book since this book offers you rich data and knowledge. Of course the knowledge in this book hundred pct guarantees there is no doubt in it you may already know.

Leonard Santiago:

Information is provisions for individuals to get better life, information presently can get by anyone from everywhere. The information can be a understanding or any news even an issue. What people must be consider while those information which is inside former life are challenging to be find than now's taking seriously which one is appropriate to believe or which one typically the resource are convinced. If you have the unstable resource then you buy it as your main information we will see huge disadvantage for you. All those possibilities will not happen with you if you take Building the Web of Things: With examples in Node.js and Raspberry Pi as your daily resource information.

Many Shirley:

Playing with family inside a park, coming to see the coastal world or hanging out with good friends is thing that usually you could have done when you have spare time, and then why you don't try factor that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Building the Web of Things: With examples in Node.js and Raspberry Pi, you are able to enjoy both. It is excellent combination right, you still wish to miss it? What kind of hang type is it? Oh come on its mind hangout folks. What? Still don't have it, oh come on its named reading friends.

Anthony Carter:

Are you kind of active person, only have 10 or maybe 15 minute in your day time to upgrading your mind talent or thinking skill also analytical thinking? Then you have problem with the book as compared to can satisfy your small amount of time to read it because all this time you only find publication that need more time to be go through. Building the Web of Things: With examples in Node.js and Raspberry Pi can be your answer mainly because it can be read by you actually who have those short spare time problems.
