## **Perspectives in Mathematical Sciences I: Probability and Statistics (Statistical Science and Interdisciplinary Research)** N S Narasimha Sastry

This book presents a collection of invited articles by distinguished probabilists and statisticians on the occasion of the Platinum Jubilee Celebrations of the Indian Statistical Institute a notable institute with significant achievement in research areas of statistics, probability and mathematics in 2007. With a wide coverage of topics in probability and statistics, the articles provide a current perspective of different areas of research, emphasizing the major challenging issues. The book also proves its reference and utility value for practitioners as the articles in Statistics contain applications of the methodology that will be of use to practitioners. To professional statisticians and mathematicians, this is a unique volume for its illuminating perspectives on several important aspects of probability and statistics.

- Entropy and Martingale (K B Athreya & M G Nadkarni)
- Marginal Quantiles: Asymptotics for Functions of Order Statistics (G J Babu)
- Statistics on Manifolds with Applications to Shape Spaces (R Bhattacharya & A Bhattacharya)
- Reinforcement Learning -- A Bridge Between Numerical Methods and Monte Carlo (V S Borkar)
- Factors, Roots and Embeddings of Measures on Lie Groups (S G Dani)
- Higher Criticism in the Context of Unknown Distribution, Non-Independence and Classification (A Delaigle & P Hall)
- Bayesian Nonparametric Approach to Multiple Testing (S Ghosal & A Roy)
- Bayesian Inference on Mixtures of Distributions (K Lee et al.)
- Markov Processes Generated by Random Iterates of Monotone Maps: Theory and Applications (M Majumdar)
- An Invitation to Quantum Information Theory (K R Parthasarathy)
- Scaling Limits (S R S Varadhan)

### **From reader reviews:**

#### **Melissa Jackson:**

The book Perspectives in Mathematical Sciences I: Probability and Statistics (Statistical Science and Interdisciplinary Research) can give more knowledge and also the precise product information about everything you want. Why then must we leave the good thing like a book Perspectives in Mathematical Sciences I: Probability and Statistics (Statistical Science and Interdisciplinary Research)? A few of you have a different opinion about e-book. But one aim this book can give many data for us. It is absolutely right. Right now, try to closer along with your book. Knowledge or information that you take for that, it is possible to give for each other; you can share all of these. Book Perspectives in Mathematical Sciences I: Probability and Statistics (Statistical Science and Interdisciplinary Research) has simple shape but you know: it has great and large function for you. You can seem the enormous world by open up and read a guide. So it is very wonderful.

#### **Bryan Jones:**

Nowadays reading books be a little more than want or need but also get a life style. This reading habit give you lot of advantages. The huge benefits you got of course the knowledge the actual information inside the book in which improve your knowledge and information. The data you get based on what kind of reserve you read, if you want send more knowledge just go with schooling books but if you want truly feel happy read one using theme for entertaining including comic or novel. The Perspectives in Mathematical Sciences I: Probability and Statistics (Statistical Science and Interdisciplinary Research) is kind of publication which is giving the reader unstable experience.

#### **Jolene Rivera:**

Reading a guide can be one of a lot of pastime that everyone in the world really likes. Do you like reading book so. There are a lot of reasons why people like it. First reading a book will give you a lot of new facts. When you read a book you will get new information because book is one of various ways to share the information or maybe their idea. Second, looking at a book will make you actually more imaginative. When you studying a book especially fiction book the author will bring that you imagine the story how the characters do it anything. Third, you are able to share your knowledge to other individuals. When you read this Perspectives in Mathematical Sciences I: Probability and Statistics (Statistical Science and Interdisciplinary Research), you could tells your family, friends along with soon about yours e-book. Your knowledge can inspire others, make them reading a publication.

#### **Deanna Thompson:**

Reading a book being new life style in this calendar year; every people loves to examine a book. When you examine a book you can get a lots of benefit. When you read ebooks, you can improve your knowledge, due to the fact book has a lot of information upon it. The information that you will get depend on what sorts of

book that you have read. If you wish to get information about your study, you can read education books, but if you want to entertain yourself look for a fiction books, such as novel, comics, and soon. The Perspectives in Mathematical Sciences I: Probability and Statistics (Statistical Science and Interdisciplinary Research) will give you new experience in reading through a book.
