Disaster can strike in a variety of different ways, and though it is always unexpected and a surprise when we confront it, how well we are able to endure it depends on a number of key factors, including how well we've prepared in advance for conceivable emergencies.

Part of this preparation involves designing an emergency and survival kit – this can be as small as a zip-up First Aid kit, or as complex and large as a pantry stocked with essential survival gear like flashlights, dried food, and water.

This book is designed to give both novice and professional survivalists alike a basic outline of the most essential gear in terms of supplementing the three basic aspects: food, water, and shelter.

However, it also included a list of items to help maintain moral and hygiene, as well.
