The Memoirs of Billy Shears Thomas E. Uharriet

The full unabridged version of the unique book that set world records: *The Memoirs of Billy Shears*. Letting the world in on secrets concealed since the Sixties, *The Memoirs of Billy Shears* reveals infallible proofs and other overwhelming evidence to finally prove, all these decades later, that Paul McCartney really died in 1966. From verifiable facts in this book, you will be sure of it, and will know how to easily prove to others that Paul was replaced by William Shepherd "Billy Shears." William has been playing the part of Paul, recording and performing, since Paul's fatal automobile accident all those years ago. Just as Beatles albums contained hundreds of clues about Paul's death and replacement (with hints in their lyrics, cover art, and video performances), in keeping with that same secret creative expression of sympathy for the loss of Paul, friends in other bands also made "Paul is Dead" songs. Among others, The Rolling Stones, The Bonzo Dog Doo-Dah Band ("The Bonzos"), The Who, Donavon, and Elton John all sing about Paul's death. This book discusses some of their songs, as well as some by "Paul," John, George, and Ringo that were made beyond their Beatles Years. The Memoirs of Billy Shears uses over two hundred songs to explain the Paul switch (including the torment it caused before and after Paul's death), to establish the historical context, and to add support, richness, and texture to the book's concepts. Those musical enhancements add warmth and a depth of feeling to the cold hard facts, giving you insider empathy for all involved. Fittingly for a book of Paul-clue decoding, The Memoirs of Billy Shears is itself fully encoded. Providing a new reading experience, readers will not only be able to decode Paul songs, but can also break the acrostical code within this book! The first letter in every other line combines to spell secret messages--adding up to be the world's longest acrostic--that the reader will love to decode.
