Khrushchev: The Man and His Era William Taubman

Winner of the 2004 Pulitzer Prize in Biography and the 2004 National Book Critics Circle Award for Biography. The definitive biography of the mercurial Soviet leader who succeeded and denounced Stalin. "The book is a gift, as fascinating as it is important."?Robert Legvold, *Foreign Affairs*

Remembered by many as the Soviet leader who banged his shoe at the United Nations, Nikita Khrushchev was in fact one of the most complex and important political figures of the twentieth century. Complicit in terrible Stalinist crimes, he managed to retain his humanity. His daring attempt to reform Communism?by denouncing Stalin and releasing and rehabilitating millions of his victims?prepared the ground for its eventual collapse. His awkward efforts to ease the Cold War triggered its most dangerous crises in Berlin and Cuba. The ruler of the Soviet Union during the first decade after Stalin's death, Khrushchev left his contradictory stamp on his country and the world. More than that, his life and career hold up a mirror to the Soviet age as a whole: revolution, civil war, famine, collectivization, industrialization, terror, world war, cold war, Stalinism, post-Stalinism. The first full and comprehensive biography of Khrushchev, and the first of any Soviet leader to reflect the full range of sources that have become available since the USSR collapsed, this book weaves together Khrushchev's personal triumphs and tragedy with those of his country. It draws on newly opened archives in Russia and Ukraine, the author's visits to places where Khrushchev lived and work, plus extensive interviews with Khrushchev family members, friends, colleagues, subordinates, and diplomats who jostled with him. William Taubman chronicles Khrushchev's life from his humble beginnings in a poor peasant village to his improbable rise into Stalin's inner circle; his stunning, unexpected victory in the deadly duel to succeed Stalin; and the startling reversals of fortune that led to his sudden, ignominious ouster in 1964. Combining a page-turning historical narrative with penetrating political and psychological analysis, this account brims with the life and excitement of a man whose story personifies his era.

"A brilliant, stunning, magnificent book. One of the most important figures of the twentieth century, who had a lot to do with setting the stage for the twenty-first, Khrushchev finally has the biography he deserves?deep and detailed yet fast-paced, scholarly yet not stuffy, historical yet intensely human. Taubman brings Khrushchev alive in all his complexity, capturing both the humanity that somehow survived in him and became the bedrock for his political decency, and the cynicism that made him part of the brutality of the Soviet system. The book has the sweep of a Big Book about a Big Figure, yet its style is no-frills, no-nonsense, straight-from-the-shoulder, with judgments proffered judiciously. Taubman does a superb job of portraying the rogue's gallery of Soviet leaders while providing a colorful canvas of the country and its history. Having spent several years of my own life in Khrushchev's shadow, I couldn't be more admiring of what Taubman has accomplished." ?Strobe Talbott, former U.S. deputy secretary of state, editor and translator of Khrushchev's memoirs "Monumental, definitive, rich in detail. Taubman pulls aside the curtain and shows us both a fascinating man and new facts about Soviet decision making during the most dangerous days of the Cold War. A highly readable, compelling story." ?Anthony Lake, former U.S. national security adviser "The definitive account of Khrushchev's career and personality, this is also a wonderful page-turner about the deadly duel for power in the Kremlin. Altogether it is one of the best books ever written about the Soviet Union." ?Constantine Pleshakov, co-author, *Inside the Kremlin's Cold War* "Few books in the field of Cold War history have been as eagerly awaited as William Taubman's biography of Nikita Khrushchev. Reflecting years of research as well as a keen sensitivity to culture, context, and personality, this extraordinary book more than matches the extraordinary character of its subject. It is a superb portrayal of

one of the most attractive?but also dangerous?leaders of the twentieth century." ?John Lewis Gaddis, professor of history, Yale University "A portrait unlikely to be surpassed any time soon in either richness or complexity. This volume, with its brisk, enjoyable narrative, succeeds in every sense: sweep, depth, liveliness, color, tempo. Each chapter shines with mastery and authority."?Leon Aron, *The New York Times* Book Review "Masterful and monumental...one should salute its author for a wonderful achievement....Starting with a juicy subject...Taubman has drawn on a huge body of material, much of it from newly available Soviet sources....He spent nearly twenty years on the book. The result is fun to read, full of insight and more than a little terrifying."?Robert G. Kaiser, *Washington Post* "Thanks to Taubman, one of the most important figures of the 20th century finally has the biography he deserves....In reconstructing a single paradoxical life, he helps us understand better the complexity of the human condition."?Strobe Talbott, *Los Angeles Times* Book Review Illustrations, maps, photographs

The Khrushchev: The Man and His Era giving you one more experience more than blown away your brain but also giving you useful data for your better life within this era. So now let us teach you the relaxing pattern the following is your body and mind will probably be pleased when you are finished studying it, like winning a game. Do you want to try this extraordinary wasting spare time activity?

Michael Hollinger:

As a student exactly feel bored to be able to reading. If their teacher expected them to go to the library as well as to make summary for some guide, they are complained. Just small students that has reading's internal or real their pastime. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading really. Any students feel that studying is not important, boring and also can't see colorful images on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Khrushchev: The Man and His Era can make you feel more

interested to read.
