Biology and Biotechnology: Science, Applications, and Issues

Helen Kreuzer, Adrienne Massey

Biology and Biotechnology: Science, Applications, and Issues Helen Kreuzer, Adrienne Massey

An inviting exploration of biotechnology, carefully blending science, consumer applications, regulatory information, and social issues.

- Provides analytical strategies necessary for making informed decisions about various uses of biotechnology.
- Provides rare view into the interconnected world of research, government policy, regulatory processes, and developing new technologies.
- Integrates cell biology with observable organismal phenomena and technological applications.
- Presents balanced examination of biotechnology in medicine, agriculture, food, and industry.
- Clarifies regulatory processes governing the introduction of new biotechnology products into the marketplace.
- Prepares students to be informed consumers of biotechnology products and policies.
