Weather Toys: Building and Hacking Your Own 1-Wire Weather Station Tim Bitson

Do more than TALK about the weather

Maybe you can't change it, but you can measure it. And once you build your weather station, the sky's the limit. You can share updates on your own weather Web site. Create a smart sprinkler for a lot less than that fancy system on TV. Free up your PC with a stand-alone weather station. Protect against lightning strikes with a surge suppressor. Take your weather station with you. Finding out which way the wind is blowing can be a lot of fun.

The Toys

- * 1-Wire weather station
- * Sensors for humidity, wind, rainfall, barometric pressure, lightning, and temperature
- * Weather Web server
- * Lightning surge suppressor
- * LED weather display
- * Smart sprinkler timer
- * Appliance controller
- * Smart home thermostat
- * Stand-alone weather station

Complete instructions and code for these and other hardware and software projects--build them all or pick and choose!

Companion Web site

At www.weathertoys.net you'll find a complete weather station software package, source code, and specialized software tools to support these projects, plus lots of additional resources.
